LIVING SPACES MADE BEAUTIFUL

Dear Sir/Madam,

Thank you so much for requesting an online brochure. It is my pleasure to introduce our company to you. HKS was founded in 1983 by my father and late grandfather when they opened our first showroom in Hastings (Hastings Kitchen Studio) selling kitchens manufactured from France. Through a huge amount of hard work, passion and attention to detail the company grew and we subsequently opened showrooms in Heathfield, Eastbourne and Haywards Heath. Through the years we have grown an enviable reputation as one of the South East's leading specialists in fitted Kitchens, Bedrooms and Bathrooms.

It is a great honour to take the company forwards through our next chapter. Our core beliefs are as important to us now as they were on the day my father started the business. Outstanding design, innovative products, hassle free installations and exceptional customer service are always at the forefront of our minds.

We are very much a family business with my wife, Anna also working at the company, as well as my father who still works alongside the team. In addition to this, the vast majority of our staff have worked for us for many years and we all share the same passions in creating beautiful spaces for our clients. Good old fashioned honest customer service is at the forefront of our minds and we are always here to help our clients long after the final screw has been fitted.

We would love to welcome you into one of our three stunning showrooms. You can be sure of a warm welcome and a nice cup of tea or coffee.

Kind regards,

*Lloyd Burgess*

# Our Kitchen Styles

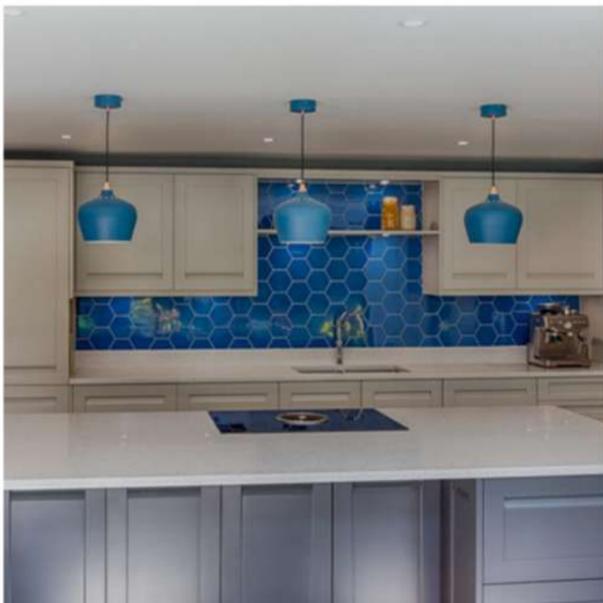

## Traditional

Our traditional styles take in the heart of English design characteristics. We're proud of our heritage, and that really shines through in our more classic designs. If you're looking for a mix of classic design and a welcoming feel, our traditional range of kitchens will be perfect for you.

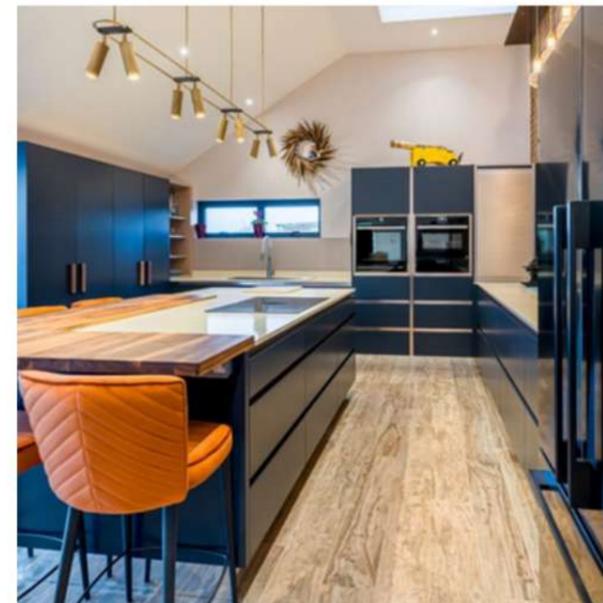

## In-Frame

These kitchens are created using carpentry techniques that have existed for hundreds of years. They differ from other traditional designs in that the doors and drawers are surrounded by a wooden frame. Our hand crafted, classic in-frame kitchens are both durable and characterful.

## Modern

Our incredible range of modern kitchens has something for everybody. Crafted to the highest standards, these kitchens are designed to stand the test of time both aesthetically and in terms of durability. No matter your design tastes or budget, we have the perfect solution for you.

## Handleless

Handleless kitchens originate from Germany, where, over the past sixty years, this efficient kitchen style has been continually refined into something very popular. If you're looking for flawless style, outstanding functionality, and impressive durability, our stunning handleless kitchens can't be beaten.

# Exquisite Bathrooms
