COOKING

Cut-through thinking, for over 30 years

With changing times come changing fashions – and the home is no exception to that rule. As a trusted expert, with decades of experience, we know that well; we’ve seen many different trends in interiors come and go. But no matter what is deemed to be ‘of the now’, at Kitchens International, we will always remain true to our founding ethos...

We are committed to working closely with you to create, craft, and deliver living spaces that are unique to your vision, your needs, and even your personality. Inspired by you, made for you, enjoyed by you. Because to us, just as there is no such thing as an ordinary client, there is no such thing as an ordinary kitchen, bathroom or interior.

Now, let’s explore the possibilities together.

POGGENPOHL | LEICHT | STONEHAM | CALLERTON | APPLIANCES

KITCHENS

Poggenpohl

Poggenpohl is not just a kitchen; it's a mindset. It's about being unafraid to embrace the playful dance of materials, finishes and features, created from an eclectic aesthetic. Diverse surfaces, patterns, and constructs seem to collide and combine at the same time, rooted in an underlying structural sensibility, which brings the whole together.

Distinctiveness is in every corner – sometimes inevitable, sometimes surprising. Yet always sitting comfortably within the overall scheme. There's a lightness of touch to be found here. But it's never frivolous. Every single part of Poggenpohl is the result of an unstinting dedication, designed to endure as well as to entertain. The power of play.

Leicht

There's a quiet confidence about a Leicht kitchen. The restrained colours and muted tones working in harmony. The clean natural aesthetic partnered with a range of surface feels. The simple elegance of a measured modernity, fashioned from the finest materials. And clever practical touches, seamlessly integrated into the whole.

Modern in every sense of the word

It's sometimes said that 'less is more'. The beautifully balanced modernity of Leicht encapsulates that maxim. Yet behind the overriding sense of calm, there is still room for a playful creativity – found in those little moments where form and function deliver pleasing stand-out details. Smart lighting ideas. Clever contrasting finishes. Or the shapely line of a shelf. Together, they produce a paean to the possibilities of modernity.

Stoneham

An investment in quality, craft, and beauty

From design to build to installation, the guiding philosophy of Stoneham must surely be an obsessive focus on quality. When in place, it will become the star of the show in any home: an

illustrious addition that will add value to any property. Yet while a smart investment, it is still a kitchen where you can be yourself. Rewarding in every sense.

Callerton

With a Callerton kitchen, the traditional meets the contemporary meets the everything in between... but with minimal fuss. The fundamental assuredness of it all – the design, the materials, and the extensive range of choices of accessories and finishing touches – gives you the perfect platform to explore and create a kitchen true to your own vision.

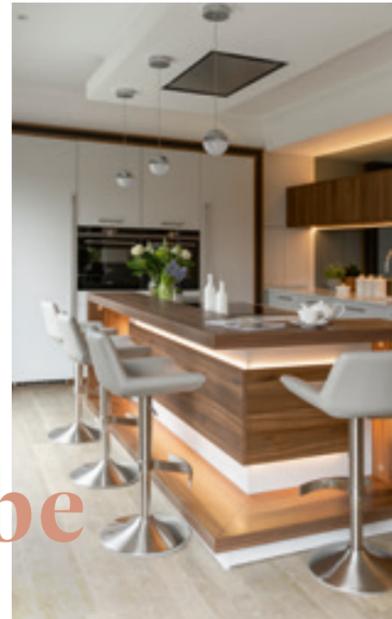

Callerton

Whatever

your

dreams

may be

Every detail matters with Callerton. You could say that signature touches are its signature touch. Express yourself, as you build your kitchen concept through a unique combination of materials, accessories, features, and finishes. It's your kitchen canvas. So, explore the possibilities, as you bring your ideas to life, guided by our experts.

SUB-ZERO & WOLF | GAGGENAU | SIEMENS

APPLIANCES

Sub-Zero & Wolf

Meticulously crafted, expertly engineered and beautifully designed. Everything produced by Sub Zero & Wolf boasts those qualities – nothing less will do. No wonder then, that they've been leading the line in kitchen cooking and refrigeration equipment for over 70 years, with a heritage story stretching back almost a century or more. This is professional standard equipment that will slot effortlessly into any kitchen design.

kä

Gaggenau

Created by centuries of excellence

The striking modernity of Gaggenau appliances is something to behold. But while their stunning looks may seduce, they're derived from a strict adherence to principle: the professional kitchen principle underpinning all Gaggenau make and do. Their cutting-edge equipment is never soulless, however; it is always inspired by a deeply human understanding of engineering excellence, rooted in a history dating back to 1683.

Siemens

Innovative, inspiring and indulgent

State-of-the-art functionality: it comes as standard with Siemens appliances. The least you'd expect from such high-end German-built quality, perhaps. But it doesn't mean beauty takes second place. Because whether your mission is creative cooking, clever cooling, or caring and cleaning, Siemens has elegant solutions to make life easier. And as well as precision kitchen performance, planet-friendly energy-efficiency is a given.

REFRESH

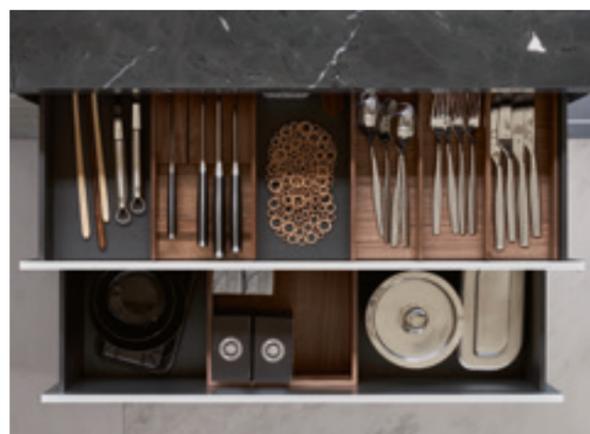

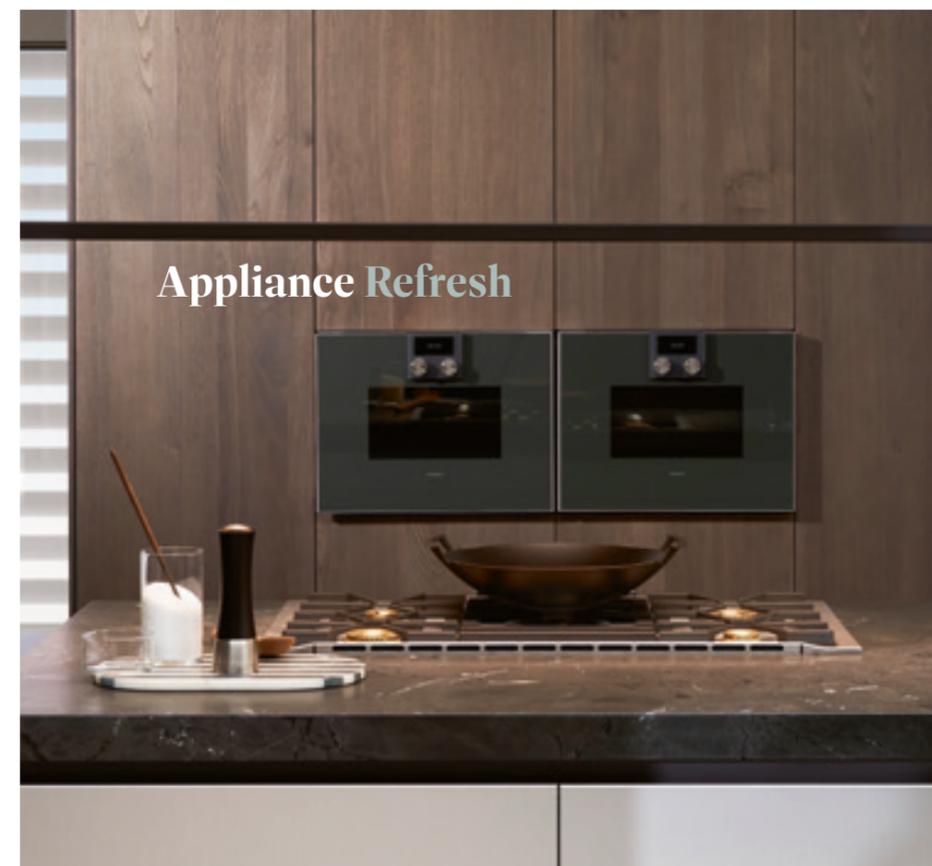

Re-imagine your kitchen

For the last 30 years, we have been creating exceptional spaces designed to stand the test of time. Whilst we know you've been enjoying your kitchen, we understand that tastes change and styles come and go. That's why we're delighted to introduce: Refresh, our exclusive kitchen refresh service, designed to give your much-loved kitchen a fresh new look, extending the life of your existing kitchen, ensuring it's in keeping with the rest of your home.

Why use refresh?

By choosing Refresh, you're making an environmentally responsible and cost effective choice. Our approach emphasises refurbishing over replacing, using sustainable materials, and upgrading to energy-efficient appliance solutions – all while maintaining the quality and craftsmanship you expect from KI.

It's a win for you, your kitchen, and the planet.

Commercial Projects & Contracts

As a single player in a much larger team, the need for quality and reliability in the commercial sector is absolute. It's a requirement that our clients know will be fulfilled by Kitchens International every time. From the smallest details to the big ideas, every aspect of your project is taken care of. We're with you, step by step, for the whole journey. From initial design ideas, to smooth delivery and installation of exclusive and inspirational spaces.

We have been helping customers and delivering exceptional products for over 30 years. In terms of planning, specification, design and installation, we believe we offer the best commercial kitchens and interiors team in the business.

HANSGROHE | VILLEROY & BOCH | KEUCO | WATERS BATHS | MATKI

BATHROOMS

Hansgrohe

A high-quality haven

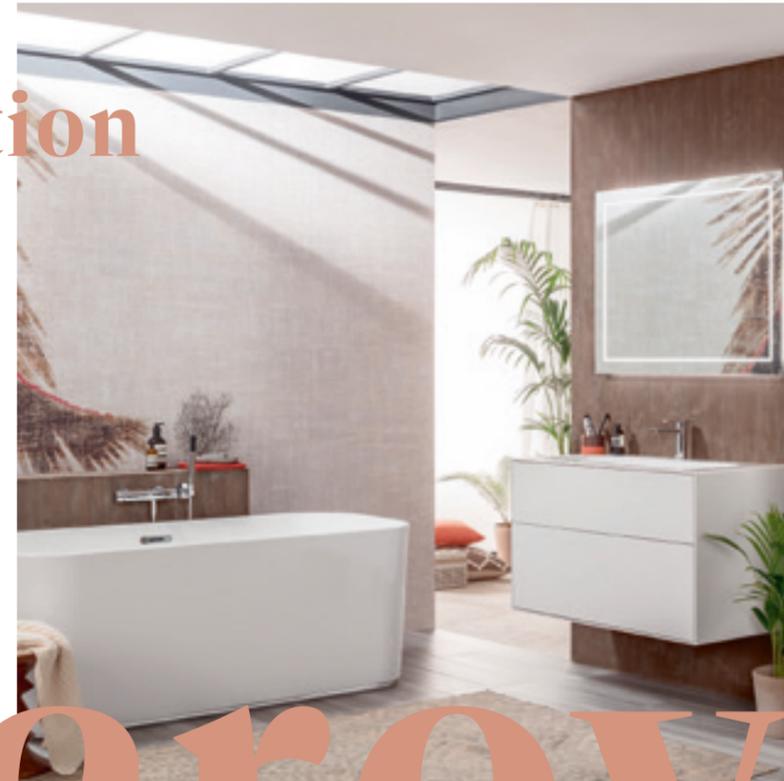

A bathroom can be somewhere you want to be, rather than somewhere you have to be. And with Hansgrohe's sublime blend of stripped-back style, supreme comfort and cutting-edge design, you will spend more time in your bathroom. Combining the latest materials, subtle touches, and sleek fixtures, Hansgrohe... is the bathroom as 'haven'.

From tradition

comes innovation

Villeroy

&

Boch

With a history stretching back to 1748, Villeroy & Boch are not so much a brand as an institution. That proud heritage is founded on a tradition of bathroom innovation. The design quality, the build materials - be they ceramic, acrylic or Quaryl® - the flourish of fixtures and features, the choice of collections... all of it is nothing short of inspirational.

Unparalleled excellence in bathroom interiors

Keuco

When you've been perfecting the art of bathrooms since 1953, you become something of a master at it. Like Keuco. Their bathroom furnishings are an effortless encapsulation of timeless quality, classic stylings, and a pared-back aesthetic. Both easy-to-use and easy-on-the-eye, Keuco represents the perfect balance of functionality and form.

Waters

Baths

Fall in love with luxury

The free-standing bath is always a seductive showpiece in a bathroom – easy to luxuriate in and hard to resist. Getting that experience right means choosing a trusted name, with a proven track record, using the finest materials and finishes. Waters Baths never fail on any count. Their range will help you fall in love with this luxury feature.

Matki

Hand-built, intelligent design

Performance with panache – that's Matki. Innovative product design with a focus on quality, simple maintenance, and longer-lasting ease-of use. Yet never ignoring the importance of look and feel. And with every shower enclosure, tray and valve designed and hand-built in the UK by Matki, this is the ultimate in product peace of mind.

INTERIORS

Never ever off the peg

Dressing Rooms

Today, the dressing room or walk-in wardrobe is a more common addition to the home. That needn't mean settling for off-the-peg. Our fitted interiors collection offers you a blend of pragmatic and panache: clever organisational use of space meets effortless storage chic. Created from smart design, exceptional materials, and innovative thinking.

Bedrooms

Where weary heads are turned

The bedroom is a place of retreat, respite and relaxation. But it can be a place to turn heads as well as rest them. Our carefully curated bedroom collection provides for every vision – both practical and decorative. From clever storage solutions to elegant design, from fitted functionality to free-standing furniture, from the useful to the indulgent.

Living Spaces

Connecting you, inspiring you

How we live is who we are. Ensuring you're in harmony with your living space – and vice versa – is key. That's what sets our award-winning design team apart. They'll help you realise an interior attuned to your individual style, working with you to choose designs, furnishings and features that connect your spaces... from dining to living to lounge.

Home

Even before 'WFH', people have always found a need for a dedicated working area at home. That could be a traditional study or library, a creative studio, or simply an environment in which to focus. Whatever your needs, our team will work with you to develop a tailored, functional space – to help you become as productive as possible.

Office

DESIGN SERVICE

The Process

Pre-design

Our Pre Design Brief meeting is the start and probably the most important step in the process of creating a great kitchen, bathroom or interior space. Once we have been invited to tender, our skilled designers will get to know all your needs and wishes. We understand how you use your current space and how it relates to the rest of your home.

We become aware of your lifestyle and discuss the aspirations you have for your new space.

Create

This is where your desires and our skills come together. Our Designers and Design Technicians will consider in great detail the information we have gathered. We will then add our professional knowledge to create a design proposal that captures every aspect of the brief.

Our designs are presented in full colour on computer generated software that captures every last detail of your new space. So you can get a real feel for the environment we have created. Budget costs will also be presented, for your approval.

Project Management

Now it's time to turn your kitchen dreams into an everyday reality. Your project will be allocated to one of our professional project managers. At this stage we work towards firming up our initial design proposals and ironing out every small detail. This is a process that works at your pace, to make the experience straight forward and enjoyable.

Clear communication is paramount to the smooth running of a renovation project and our highly experienced Project Managers will work with all parties involved, to ensure the project runs smoothly and without fuss.

Delivery

Just like our kitchens, bathrooms & interior spaces, each delivery is unique. Your furniture and components will be collated at our central distribution centre and carefully delivered in liveried vehicles by our very own distribution department, ensuring a quality of care second to none.

Installation

On the agreed installation date, our professionally trained installation team will arrive in liveried vans ready for work. State of the art modern tooling combined with good old fashioned craftsmanship guarantees the standard of workmanship will be to your satisfaction.

Our qualified installation team will follow the schedule of works agreed, which can include some specialised materials such as corian, glass and engineered stone. They take real pride in their work and treat your home as if it were their very own.

Aftercare

Your kitchen is in. You're using it every day. You love it. But that's not the end of the story as far as we're concerned. Naturally, your kitchen comes with a full guarantee. But we've gone further than that. At the time of installation we have logged the full serial reference number of each and every appliance in your kitchen. We want to make sure that your kitchen is everything you hoped it would be, now and for years to come. Even when it's yours, we treat it like it's ours.

“A kitchen which is designed correctly is a pleasure to work in. KI’s highly professional approach to planning and construction have made my domestic kitchen exactly that. I was the exacting customer and KI lived up to all I had hoped for.”

“Kitchens International has the best brands, but it’s the level of service that makes a difference. With a great attention to detail, nothing is too much trouble. A forward thinking company with a can do mentality.”

“Restaurant Ondine is a people business and we look to constantly deliver high levels of performance. Likewise, the team at KI combined their unique talents to create & deliver a kitchen that has completely transformed my home.”

“A big thank you to KI for delivering such a fantastic kitchen renovation. The quality and craftsmanship are exceptional. The space is not only beautifully designed but incredibly practical too. From the first consultation to the final touches, the entire experience was smooth, professional, and genuinely enjoyable. The kitchen has completely transformed the heart of our home - and is the perfect space for cooking, entertaining, and hosting our supper club.”

Tony Singh

Don't just take our word for it.

There is no such thing as an ordinary client. So, why should people accept ordinary kitchens, bedrooms, bathrooms or interiors? Our mission is to go above and beyond in creating, crafting and curating inspiring home spaces, unique to your own personal vision – and as individual as you are. Doing so using only the best materials, the finest craftsmanship, and our award-winning designers. **Never ordinary, always inspiring.**
