**CHOOSING A KITCHEN SHOULD BE
EXCITING – NOT OVERWHELMING**

At Saffron Interiors, we make sure it is.

With over 15+ years of experience designing kitchens across Guildford and the surrounding areas, we're here to guide you every step of the way – from first ideas to final installation.

Whether you're drawn to modern, traditional or fully bespoke, every kitchen we create is built to last and tailored to your lifestyle – with honest pricing, expert advice and no pressure.

A modern kitchen featuring grey-blue cabinets with a classic in-frame design. The upper cabinets have silver-toned knobs, while the lower cabinets and drawers have silver-toned pull handles. The countertop is a light-colored, polished material, possibly marble or quartz. The backsplash is made of white subway tiles with dark grey grout. On the countertop, there is a black induction cooktop, a blue ceramic pitcher, a blue ceramic knife block, a blue ceramic butter dish, and a silver toaster. A yellow text box in the upper left corner of the image contains the text "inframe kitchens".

bespoke kitchens

YOUR QUIRKS, YOUR SPACE, YOUR DESIGN.

Behind closed doors, we all do things a little differently. We've got our quirks, our routines, and the small comforts that make a house feel like home. What works perfectly for one person might not work at all for the next – and that's exactly why we design every kitchen around you.

With our bespoke design service, every detail is considered. From your height (so you can reach everything comfortably) to the needs of your household – whether that's elderly relatives, little ones, or even the family pet – a kitchen where everyone is considered.

our design process

**WE DON'T START WITH COLOURS OR CABINETRY.
WE START WITH YOU.**

At Saffron, we believe great design begins with understanding. Before we even open a sample book, we take time to learn about you – how you live, cook, relax and gather as a family. Every question we ask and every detail we note helps us create a kitchen that fits seamlessly into your daily life.

Our designers listen carefully, refine thoughtfully and guide you through every step, ensuring the result feels personal, practical and completely yours. And with detailed CAD visuals, you'll see your new kitchen come to life long before a single cabinet is ordered.

The design stage was excellent. Saffron took the time to truly listen to our wishes, offered their own extremely helpful suggestions, and worked hard to create a design that was exactly what we wanted. They were also more than happy to make several thoughtful tweaks to the very useful 3D walkthrough render they provided, ensuring everything was just right."
